

Upgrade for Your Lab

## Upgrade Your Rotavapor® By Reusing Your Glassware

Modular design for individual demands and applications

The BUCHI Rotavapor® is a modular instrument:  
your old, 20 years ago bought glassware is still usable!

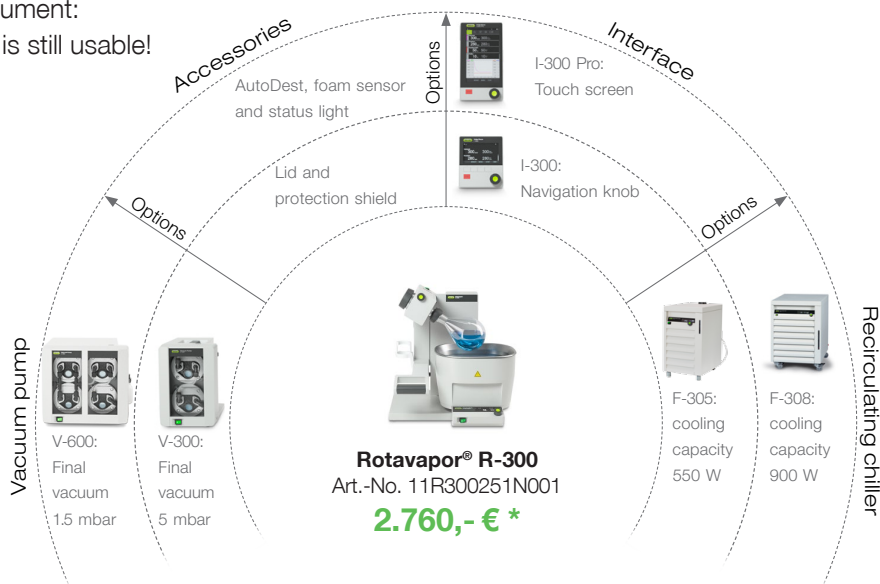

It is possible to use the glassware on the  
latest instruments.

Just update the instrument with different  
options and have a future proof device.

Get 2025's special price on the most  
innovative Rotavapor® and keep on using  
**your existing glassware!**

\* The offer is valid in Finland at G.W. Berg & Co, the price  
0% VAT. in exchange of an old Rotavapor®, only.  
The offer ends after 31st December 2025.

Terms & conditions apply. Prices are not binding,  
subject to change and errors.

**Make your lab future proof and claim your exclusive offer!**
